Get Up	1500	430	95	White RAL 9010	2432	8298	981	803

*These models have special valve connections, which are closer to the wall than usual.

- **Few radiators remaining so please check stock** - approximately 7 - 10 working days delivery.
- Please be aware, this radiator acts as a convector heater, and emits heat from the space at the top of the radiator between the wall and the rear of the radiator as opposed to the front panel. For this reason, the radiator has a low surface temperature.
- 25mm gap from wall to rear of radiator on all Outline models.
- Distance wall to front face: 50mm deep models = 75mm / 95mm deep models = 120mm
- Underside valve connections.
- **Nationwide delivery available – Usually £25 per consignment**
- To complete the look, see our valves page (valves are not included as standard).
- To order or for further information, please call or email.
- Heat outputs are shown at operating temperatures of 90/70/20 ($\Delta t_{60}^{\circ}\text{C}$).
- All sales are subject to our standard terms and conditions, a copy of which is available on request.

The above prices are exclusive of VAT.
