Get Up/CH	1800	500	50	1691	5771	Supermirror stainless steel	1145	728

- **These are clearance models so stock is very limited. Other sizes and finishes are available by special order.**
- Outline is a modular aluminium high output radiator with a separate stainless steel or powder-coated mild steel front fascia panel.
- Low Surface Temperature - this radiator acts as a convector heater and emits heat from the space at the top of the radiator between the wall and the rear of the radiator as opposed to the front panel.
- 25mm gap from wall to rear of radiator on all Outline models.
- Distance wall to front face: Shallow radiators (50mm deep) = 75mm (with towel rail = 125mm)
Deep radiators (95mm deep) = 120mm
- **Underside valve connections unless otherwise mentioned.**
- To complete the look, see our valves page (valves are not included as standard).
- UK mainland delivery available.
- For central heating radiators, heat outputs are shown at operating temperatures of 90/70/20 ($\Delta t60^{\circ}\text{C}$). To obtain $\Delta t50^{\circ}\text{C}$ outputs multiply the outputs shown by 0.789.
- All sales are subject to our standard terms and conditions, a copy of which can be downloaded from our website.

The above prices are exclusive of VAT.
