TWISTER

made of stainless steel

price list with effect from 1st November 2009

Made of stainless steel, the vertical bars of the Twister radiator are highly polished on one side and brushed on the other. These bars are 'twisted' by 360 degrees from top to bottom, creating impact and the ultimate style statement. The picture doesn't do this head turner justice.

central heating - stainless steel

model	height (mm)	width (mm)	number of bars	output		price £
