

feature radiators

TREND

Price list with effect from 1st February 2012

180/3 in white using underside connections

180/4 in anthracite not plumbed in pictured in a recess

Tall and flat fronted, this supermodel in the radiator world is the talk of the town due to its high performance and eco-friendly properties. Made of recycled aluminium, the Trend has a rapid reaction time, heating up three times faster than ordinary steel panel radiators. For shorter models, see our Decoral and Lie Low ranges.

Central heating radiator

Model	Height (mm)	Width (mm)	Output		Gloss white £	Anthracite £
			Watts	BTUs

TREND 180/8	1800	675	2528	8626	727	727

Gloss white (RAL 9010): usually in stock in the UK. Gloss white is a new finish and supercedes the previous semi-gloss finish.

Anthracite is a matt charcoal grey/black. Usually in stock in the UK.

- Made of aluminium.
- Distance wall to front face: 111mm
- Approximate pipe centres can be provided if you wish to install your pipework in advance of receiving your radiator. Radiators are supplied with the necessary fixings i.e. brackets, spacers, air vents etc (note: screws are not supplied).
- Underside and side valve connections. For side connections add an extra 150mm to the width of the radiator to allow for valves. (These are not pipe centres).
- To complete the look, see our valves page (valves are not included as standard).
- Nationwide delivery available – usually £25 per consignment.
- Heat outputs are shown at operating temperatures of 90/70/20 ($\Delta t 60^{\circ}\text{C}$).
- All sales are subject to our standard terms and conditions, a copy of which can be downloaded from our website.

The above prices are exclusive of VAT.
