burlington 6 section dark olive brown shown above

## ELECTRIC BURLINGTON

create the elegance of a bygone era  
with this cast iron radiator

### ELECTRIC BURLINGTON

sections	length (mm)
6	480
7	556
9	708
12	936
15	1164

### 838mm high

element wattage	dark olive brown £	other finishes £
600	748	806
900	850	918
1200	1055	1141
1500	1361	1476
2000	1668	1811

Listed above are the shortest length radiators needed to accommodate the relevant sized element. If you wish to have longer radiators for aesthetic reasons then these can be made up. Please ask for prices.

#### Radiator Finishes

- Available in  *matt metallic finishes*  (antique gold, light old penny, dark old penny, natural cast iron, anthracite, pewter) and a selection of  *semi-gloss*  (some RAL colours, gun metal and black). Colour cards available on request. Shade variations may occur from one paint batch to the next, particularly in respect of the matt metallic finishes. Where it is imperative that radiators exactly colour match, then such radiators should be ordered together. If you are looking to match the colour of radiators ordered previously, please disclose this at the time of order, so we can do what we can to minimize the variation in shade.
- Warning: please be aware that pewter, white, cream and other light coloured paint finishes highlight the imperfections characteristic of cast iron more than the darker colours.
- Primer finish available for on site painting or we can deliver direct to your own painter in the UK. We strongly advise against powder coating this product as this process can weaken the seals between sections. Powder coating will invalidate the manufacturer's guarantee.
- These radiators have a textured finish which is characteristic of cast iron. If you are looking for a column style radiator with a smooth finish please see the radiators in our Bordo range, which are made of steel.
