

effective from 18th June 2010

SmartRads working together as a centrally controlled heating system - pick and mix from the SmartRads below to create the perfect heating system for your space. One SmartRad Controller is needed for each heating zone.

SmartRad as a stand-alone unit - each radiator has a simple on/off switch. SmartRad Controller is not necessary to operate one SmartRad working alone, but may be desirable for greater control (thermostat and timer).

SmartRad – white or colour* panel

height/length (mm)	length/height (mm)	depth (mm)	distance wall to front face (mm)	heat output watts	white £	jet black £	other RAL colours available* (please ask for more details)

SmartRad Controller = £80 + VAT (1 controller per zone)
 SmartRad Controller links SmartRad radiators together to form a centrally controlled heating zone. SmartRad Controller is wireless, easy to program, easy to re-program and simple to use. SmartRad Controller operates like a gas central heating controller with:

- 7 day clock, up to 6 temperature settings per day
- Frost protection
- Keylock mode – to prevent tampering
- Boost mode – Unexpectedly cold day? Just click boost to turn on the radiators for the next hour.
- Advance mode – Brings forward the next programme
- Holiday mode – Turns the heater off subject to 'frost protection' mode

- All SmartRad radiators are made to order, please allow around 3 – 4 weeks for delivery except glass models which take approx 4 – 5 weeks
- *white and jet black (RAL 9005) are stocked colours. Other colours are bought in especially and incur a surcharge, please ask for details
- Made of steel
- 2 year manufacturer's warranty
- Nationwide delivery – free delivery on orders of 5 radiators or more
- All sales are subject to our standard terms and conditions a copy of which is available on request or can be downloaded from our website

the above prices are exclusive of VAT
