ETONIAN - ELECTRIC

four and six column cast iron radiator victorian style

Top of the class - Ideal for both old and new properties, the Etonian brings timeless design, exceptional quality and efficient practical heating to any home. This classically styled cast iron radiator is designed with elegant integral legs and simple detail emphasised by the unusually high standard of casting. Tested to the European standard EN 442 and with a 10 year manufacturer's guarantee, the Etonian is top of its class for design, history and economics. Made exclusively for Feature Radiators, by the best in Europe, the Etonian has a proven track record and represents genuine value for money. Its no wonder it continues to be our best selling range

Awarded best cast iron radiator – by Homebuilding and Renovating Magazine 2009, and the repeat choice of top designers, architects and industry experts. Used in National Trust Properties as well as cutting edge Grand Designs – and now available in electric form – 600 watts – 2000 watts.

Listed below are the shortest length radiators needed to accommodate the relevant sized element. If you wish to have longer radiators for aesthetic reasons then these can be made up. Please ask for prices.

Finishes

- #Top coat - Standard paint finishes are *matt metallic finishes* (antique gold, light old penny, dark old penny, natural cast iron, anthracite, pewter) and a selection of *semi-gloss finishes* (some RAL colours, gun metal and black). Colour cards available on request. We can also colour match to Farrow and Ball, Aga and Rayburn colours for a surcharge. Please ask for details.
- Shade variations may occur from one paint batch to the next and over the years our standard for some colours (including anthracite) has changed. Accordingly, where radiators are to be used in the same room and/or a colour match is important, it is advisable to order all radiators at the same time.
- If you are looking to match the colour of radiators ordered previously, please disclose this at the time of order, so we can do what we can to minimize the variation in shade.
- Warning: please be aware that pewter, white, cream and other light coloured paint finishes highlight the imperfections characteristic of cast iron more than the darker colours.
- Primer finish available for on site painting or we can deliver direct to your own painter in the UK. We strongly advise against powder coating this product as this process can weaken the seals between sections. Powder coating will invalidate the manufacturer's guarantee.
- These radiators have a textured finish that is characteristic of cast iron. If you are looking for a column style radiator with a smooth finish please see our Classic and Bordo ranges, which are made of steel.

Electric element

- Comes with 1 year warranty
- The electric element supplied is for DIY installation on site – full instructions provided. The element can be fitted on either side. It is supplied with 1m of white flex
- Adjustable (operating range 20-70°C) thermostatically controlled element with frost protection setting, 240V on/off operation
- Please note the electric elements and associated parts are supplied in white as standard. Other colours available – please ask for details
- Please allow an extra 60mm width for the element control box

- Other sizes – other sizes are available, please ask for details.
- Lead times - primer finish: allow approx 10 – 15 working days. top coat finish: please allow approx 4-5 weeks
- Delivery - nationwide - usually £25 per consignment
- For the radiator - 10 year manufacturer's guarantee against manufacturing defects – maximum working pressure of 6 bar
- Fixings - radiators are supplied with the necessary fixings i.e. wall bracket, plugs, bushes – note: fixing screws are not supplied
- Depth of radiators – overall depths are stated, ie. allowing for legs. depths of radiators without legs - 144mm for 4 columns, 221mm for 6 columns
- Floor mounted as standard - wall mounted versions with no feet also available for the same price as the floor-mounted (height as above less 60mm) – please specify when ordering
- Radiator assembly - 357mm and 475mm high 4 column radiators and 485mm high 6 column radiators - up to 20 sections can be delivered to site ready assembled. All other heights – up to 17 sections can be delivered to site ready assembled. For larger sizes a joining tool is required for on site assembly.
- Also available as central heating radiator
- all sales are subject to our standard terms and conditions a copy of which can be downloaded from our website
