## iRad Picture

Price list with effect from 16<sup>th</sup> January 2012

**Waterfall design**

**Hokusai wave design**

Picture this, a slimline electric radiator with a choice of five stunning images printed on the front face. Work of art and efficient practical heater in one. The iRad Picture makes a statement, and brings warmth and style to any room it graces. This radiator can be used with a remote iRad Controller, allowing you to set the temperature and operating times.

**iRads working together as a centrally controlled heating system** - pick and mix from the iRad Picture, iRad Round, iRad Templo and standard iRad range to create the perfect heating system. One iRad Controller is needed for each heating zone.

**iRad as a stand-alone unit** - each radiator has a simple on/off switch. An iRad Controller is not necessary to operate one iRad working alone, but may be desirable for greater control (thermostat and timer).
