

iRad

Effective from 16th January 2012

iRads working together as a centrally controlled heating system - pick and mix from the iRads below as well as the iRad Round, iRad Templo and iRad Picture to create the perfect heating system. One iRad Controller is needed for each heating zone.

iRad as a stand-alone unit - each radiator has a simple on/off switch. An iRad Controller is not necessary to operate one iRad working alone, but may be desirable for greater control (thermostat and timer).

iRad – mild steel panel in white, silver, black and RAL colours.

Height/length (mm)	Length/height (mm)	Depth (mm)	Distance wall to front face (mm)	Heat output Watts	White £	Silver £	Black £	Range of RAL colours available* Round model also available. <i>(Please ask for details)</i>
