# feature radiators

## Finishes:

Primer:	For on site painting or for delivery direct to your chosen painting company in the UK
Standard painted finishes:	Traditional matt metallics - antique gold, light old penny, dark old penny, natural cast iron, anthracite, pewter – colour card available  Wide range of semi-gloss RAL colours – colour card available
Bespoke colour match:	We can colour match to any non-textured paint range (including Farrow and Ball, Aga, Rayburn, Little Greene Paint Co, Fired Earth, Paint Library and Dulux colours) for an additional charge.

## Notes:

Cast iron radiators have a textured finish. For a smooth finish please see our Classic and Bordo ranges, which are made of steel.

Shade variations may occur from one paint batch to the next and over the years our standard for some colours has changed. Accordingly, where radiators are to be used in the same room and/or a colour match is important, it is advisable to order all radiators at the same time. If you are looking to colour match to radiators ordered previously, please make us aware of this at time of order so we can minimize shade variation.

Pewter, white, cream and other light coloured paint finishes will highlight the imperfections characteristic of cast iron more than the darker colours.

For radiators in primer, we strongly advise against powder coating as this process can weaken the seals between sections. Powder coating will invalidate the manufacturer's guarantee.

## IMPORTANT INFORMATION

### Electric element

- Comes with 1 year warranty.
  - The electric element supplied is for DIY installation on site – full instructions provided. The element can be fitted on either side. It is supplied with 1m of white flex.
  - Adjustable (operating range 20-70°C) thermostatically controlled element with frost protection setting, 240V on/off operation.
  - Please note the electric elements and associated parts are supplied in white as standard. Other colours available – please ask for details.
  - Please allow an extra 60mm width for the element control box.
- 
- Lead times - dark olive brown: allow 10 – 15 working days / other finishes: please allow 5 weeks.
  - Delivery - nationwide - usually £25 per consignment.
  - 10 year manufacturer's guarantee on radiator – maximum working pressure of 6 bar.
  - For larger sizes (over 15 sections) a joining tool is required on a £100 refundable deposit for assembly on site – each section is 76mm wide, end bushes = 24mm. Any longer sizes would have a 2000 watt element as standard.
  - Fixings - radiators are supplied with the necessary fixings i.e. wall bracket, plugs, bushes, vents, - note: screws are not supplied.
  - *Also available as central heating version.*
  - All sales are subject to our standard terms and conditions, a copy of which can be downloaded from our website.
