ELECTRIC ROCOCO

Effective from 26th June 2017.

810mm high, 8 sections wide in burnished gold with satin gold element#

Cast from originals found in a Parisian bordello. This gorgeous cast iron radiator with floral rococo motif and scrolled top oozes glamour and the decadence of a bygone era, bringing real oomph and lashings of warmth to the party. The burnished finish further emphasises the stunning decorative detail.

Below are approximate measurements of assembled radiator sections (end bush to end bush); these are intended as a rough guide only.

ELECTRIC ROCOCO - 460mm high (140mm deep)

Code	Height mm	Sections	Width mm	Depth mm	Electric element Wattage	Primer £	Burnished Finish £
ROC/460/07/E	460	7	564	140	900	503	584
ROC/460/12/E	460	12	944	140	1500	763	902

ELECTRIC ROCOCO - 810mm high (140mm deep)

Code	Height mm	Sections	Width mm	Depth mm	Electric element Wattage	Primer £	Burnished finish £
ROC/810/07/E	810	7	540	140	1200	611	719
ROC/810/08/E	810	8	610	140	1500	678	802
ROC/810/10/E	810	10	750	140	2000	813	967

- The measurements of the Rococo radiators have changed slightly over the years. Please bear this in mind if you are matching to existing Rococo radiators.
- All Rococo radiators are made to order. Lead time is approximately 3 to 4 weeks.
- **SEE MORE IMPORTANT INFORMATION OVERLEAF.**

Finishes for ROCOCO – see important information on last page

Primer – Grey zinc oxide primer.

Burnished Finishes - This highlights the decorative detail in the casting. Finishes available are burnished iron, burnished copper and burnished gold. This finish is done by hand so bear in mind that variation will occur.

Plain Paint Finishes – a standard range of plain paint finishes are available on request.

Bespoke matching service – bespoke matching service for all colours that do not fall within the Standard Paint Finishes. Please ask for a quote.

#Element finish – white as standard. A limited range of other finishes are available for a surcharge.

The prices shown above are excluding VAT.

feature radiators

ELECTRIC CAST IRON RADIATORS

All our electric cast iron radiators are central heating models that are supplied with a DIY electric element kit for installation on site. We have included a selection of our most popular cast iron models in our Electric Collection, however we can also electrify further cast iron radiator models. See our Traditional range for the other models available and refer to our sales team for sizes and pricing information.

Delivery – delivery available to any address on the UK mainland.

Quality - Our radiator sections are joined together using seals that have been specifically sourced to ensure a neat finish between sections. This avoids the risk of paint issues that have been seen in cast iron radiators where standard seals are used.

Parts included - Radiators are supplied with the necessary fixings i.e. brackets, spacers, air vents etc (note: screws are not supplied).

Floor-standing or wall-hung? – All electric cast iron radiators are supplied floor-standing, with integral feet, as standard.

Longer sizes - Listed below are the shortest length cast iron radiators needed to accommodate the relevant sized element. If you want longer radiators for aesthetic reasons then these can be made up. Please ask for prices.

Electric elements for cast iron radiators

- Supplied as a DIY electric element kit for installation on site.
- The electric element has 1m of white flex and is for DIY installation on site – full instructions provided.
- Adjustable (operating range 20-70°C) element with frost protection setting, 240V on/off operation.
- Elements are supplied in white as standard. A limited range of other finishes are available on request for a surcharge of £20 excluding VAT.
- Please allow an extra 60mm width for the element control box.
- Upgrade any electric cast iron radiators using our iBox system to ensure the ultimate in control, minimising energy wastage. Wirelessly link electric radiators to create a complete, centrally controlled heating system using our in-house controller or use our smart system to control electric radiators remotely via you PC, tablet or smartphone. Please ask for more information on controlling electric radiators.

Cast iron radiator finishes

Texture of finish - Cast iron radiators have a rough/textured finish; this is a characteristic of cast iron. If you are looking for a perfectly smooth finish on a column radiator, we instead recommend going for a steel radiator such as the Classic, Bordo, Vault, Colori, Creamery and Core radiators.

Primer finishes – Primer finish is a base coat. The primer finish is not intended as a finished surface therefore an appropriate undercoat and top coats (wet paints, NOT powder coats) would need to be applied. We can deliver radiators in this finish to site or to your nominated painting company.

Powder coating – DO NOT powder coat cast iron radiators; this process can weaken the seals between sections which will lead to leaks. Powder coating will invalidate the manufacturer's guarantee.

Light colour options - Please be aware that pewter, white, cream and other light coloured paint finishes highlight the imperfections characteristic of cast iron more than the darker colours.

Hand-painted finishes – Burnished, antiqued and highlighted finishes available on the ornate cast iron radiators are all done by hand. Therefore variation will occur from one radiator to the next.

Shade variations – These may occur from one paint batch to the next, particularly in respect of the matt metallic finishes. Where it is imperative that radiators exactly colour match, then such radiators should be ordered together. If you are looking to match the colour of radiators ordered previously, please disclose this at the time of order, so we can do what we can to minimize the variation in shade.

Cancellations – All cast iron radiators are assembled and painted to order. This means, once manufacture has commenced, orders cannot be cancelled.

All sales are subject to our standard terms and conditions; a copy can be downloaded from our website or is available on request.
