VICTORIAN 3

Effective from 14th November 2011

Victorian 3, 745mm high 10 section in anthracite with Hilton chrome thermostatic valves

Victorian 3, 645mm high 11 sections in old flirin grey with Chartwell thermostatic valves

Three column cast iron radiator. Hand-built using traditional methods. Sizes listed below are supplied pre-assembled.

This classic 3 column deep radiator brings simple style to contemporary settings and authenticity to period properties. We believe the quality and finish of our cast iron is second to none. The devil's in the detail, so when it comes to quality, finish and longevity, no expense is spared.

feature radiators

Finishes:

Primer: For on site painting or for delivery direct to your chosen painting company in the UK. Black primer as standard or white primer is available on request.

Standard painted finishes:

- Traditional matt metallic colours - guinea gold, farthing, old florin grey, anthracite, sterling, old pewter, copper and sovereign gold;
- Colours matched to the Farrow & Ball range (satin or gloss finish);
- Most colours from the RAL range (satin or gloss finish); and
- Most colours from the BS range (satin or gloss finish).

Colour swatches available on request.

Bespoke colour match: We can colour match to any non-textured paint range (including Aga, Rayburn, Little Greene Paint Co, Fired Earth, Paint Library and Dulux colours). There may be a surcharge for this, please call for details.

Notes:

Cast iron radiators have a textured finish. For a smooth finish, please see our Classic and Bordo ranges, which are made of steel.

Shade variations may occur from one paint batch to the next and over the years our standard for some colours has changed. Accordingly, where radiators are to be used in the same room and/or a colour match is important, it is advisable to order all radiators at the same time. If you are looking to colour match to radiators ordered previously, please make us aware of this at time of order so we can minimize shade variation.

White, cream and other light coloured paint finishes will highlight the imperfections characteristic of cast iron more than the darker colours.

For radiators in primer, we strongly advise against powder coating as this process can weaken the seals between sections. Powder coating will invalidate the manufacturer's guarantee.

IMPORTANT INFORMATION

- All Victorian 3 radiators are made to order. Lead times - primer: please allow approximately 3 – 4 weeks
- Once manufacture has commenced, orders cannot be cancelled.
- Radiators are supplied with the necessary fixings i.e. brackets, spacers, air vents etc (note: screws are not supplied).
- Valves – not included as standard. See our valves page for traditional and contemporary style valves to complete the look.
- Nationwide delivery available – usually £25 per consignment.
- Heat outputs are shown at operating temperatures of 90/70/20 ($\Delta t60^{\circ}\text{C}$).
- Manufacturer's guarantee - 10 year manufacturer's guarantee against manufacturing defects – maximum working pressure of 6 bar.
- Water treatment – the manufacturer's guarantee will only be valid if your radiators are installed in accordance BS 5449 section five commissioning. On completion of installation the system should be properly flushed and filled to remove debris and minimise the presence of solid particles and chemical residues, which may cause corrosion and damage within the system. Use of the corrosion inhibitor should be in accordance with the manufacturer's instructions and recommendations and should take into account the particular metals within the system.
- All sales are subject to our standard terms and conditions, a copy of which can be downloaded from our website.

These prices are exclusive of VAT.
