## brunswick towel warmer range – squared tubes made from 100% stainless steel

price list with effect from 1<sup>st</sup> March 2010

one of our most popular ranges / delivery next day if ordered before noon / simple classic designs / complementary to both traditional and contemporary interiors / 25 year manufacturer's guarantee / can be used on any heating system including open systems

the stainless steel used to make these rails is produced from over 90% recycled metal, manufactured environmentally and is 100% recyclable itself.

### straight-fronted square tube rails – central heating

model	height mm	width mm	output watts / btu	polished £	satin £
<b>BRUNSWICK 1250/350</b>	1250	350	410 / 1398	459	459
<b>BRUNSWICK 1650/350</b>	1650	350	539 / 1838	579	579
<b>BRUNSWICK 1250/520</b>	1250	520	480 / 1638	500	500
<b>BRUNSWICK 1650/520</b>	1650	520	633 / 2162	600	600

#### summer heating elements

basic summer heating elements - add £67 to prices above

#### all electric versions

summer heating elements with adjustable thermostatic control – add £108 to prices above

all electric versions using the basic elements – add £80 to prices above

all electric versions using adjustable thermostatic control – add £115 to prices above

**electric elements** – the basic elements used in our electric rails and summer heating elements have a built in thermostat and thermal cut out as standard. this can be upgraded to an element with adjustable thermostat. elements are fitted as standard in the right hand side of the towel rail and in the case of electric only towel rails are capped on the left hand side with a chrome plated cap. Can be connected to a fused spur or a 3 pin plug (please allow extra height when electric element is added)

**profile valves** – specifically designed not to protrude outside the dimensions of the alpine towel rail – polished or satin finish manual valves available in pairs of either angled or straight - £70 (polished), £91 (brushed satin)

- all items usually in stock in the UK and available for next working day delivery
- distance wall to front face – using standard brackets: straight-fronted square tube rails (brunswick) = 70-95mm
- nationwide delivery available – usually £25 per consignment
- to order or for further information, please call or email
- heat outputs are shown (for central heating radiators) at operating temperatures of 90/70/20 (Δt60°C)
- all sales are subject to our standard terms and conditions a copy of which can be downloaded from our website

**all prices are exclusive of VAT**
